

Veterinary Lecturer / Senior Veterinary Lecturer (Anatomic Pathology)

Aberdeen

Full-Time (37 hours)

Permanent

£50,537 – £54,041 per annum – Veterinary Lecturer

£59,640 – £69,035 per annum – Senior Veterinary Lecturer

Reference: ANF/SVM/023/24

Closing date for applications: 9th December 2024

About The Team:

School of Veterinary Medicine

The first new School of Veterinary Medicine in Scotland for 150 years.

Scotland's Rural College (SRUC) has developed an innovative new School of Veterinary Medicine. We have a clear ambition to 'promote the resilience of our graduates to sustainably support the animals and rural communities at the heart of Scotland's Natural Economy'.

Wayne Powell, SRUC Principal and CEO. 'We are an ambitious institution with a bold vision for the future. This is a ground-breaking model to expand access to educational opportunities and broaden the range of potential students who would not ordinarily be able to attend a School of Veterinary Medicine. It will also help solve existing skills shortages across Scotland'.

The Opportunity:

We are seeking a highly motivated experienced, RCVS registered veterinary surgeon to provide excellence in teaching and research to contribute to the School's teaching on the BVSci programme primarily, as well as allied health programmes in the School. The candidate will have an extensive knowledge of anatomic pathology to support veterinary science teaching through lectures, tutorials, workshops and practical classes.

We are interested in candidates with experience of Post Mortem and biopsy diagnostic service workload from a variety of companion and production animal species. You will develop and deliver high quality teaching and scholarly outcomes as a member of the wider veterinary medicine teaching and research team.

It is expected that lecturers will have experience of scholarly and stakeholder/sector engagement activities evidenced through impactful publications and other outputs. The successful candidate will be based at SRUC's Aberdeen Campus.

Minimum Qualifications:

The minimum qualifications required, are an RCVS accredited Degree in veterinary medicine ([SCQF level 11](#) or above) and postgraduate experience in Anatomic Pathology.

For full person specification, please read the Job Particulars document.

Eligibility for Sponsorship

For the purposes of sponsorship, this role may be eligible for sponsorship depending on candidate circumstances.
