

Resident in Veterinary Anaesthesia and Analgesia

THE RESIDENCY PROGRAMME

We invite applications for a three-year residency programme in Veterinary Anaesthesia and Analgesia, which will start on 01/10/2025. The residency is designed to prepare candidates for the ECVAА Diploma. Throughout the programme, residents will gain extensive experience in clinical anaesthesia and engage in clinical research. You will have the privilege of learning under the supervision of 2 ECVAА and 1 ACVAА diplomate. Your responsibilities will include actively participating in the management of patients admitted for anaesthesia for various surgical and diagnostic procedures. Additionally, you will be involved in a one-in-four on-call rotation and will contribute to the teaching commitment of the anaesthesia team.

THE HOSPITAL

The Veterinary University Clinic of the University of Liege is a renowned institution for veterinary care, education, and research. With specialists from various disciplines, we offer advanced diagnostic and therapeutic services for animals and provide a training ground for future veterinarians and specialists.

ELIGIBILITY AND REQUIREMENTS

The candidate should hold a DVM or equivalent degree from an accredited veterinary school allowing him/her to practice veterinary medicine in Belgium. The successful candidate has finished a one-year rotating internship in companion animals that needs to be approved by the ECVAА education committee and has ideally experience in veterinary anaesthesia. Proficiency in the French language is an advantage. Effective communication and interpersonal skills are essential attributes, as the role requires collaboration within a team-oriented environment.

Would you like to join us?

Your applications should include a curriculum vitae, a cover letter and 2 letters of reference. All applicants are encouraged to schedule a visit to the clinic. Selected candidates will be contacted for an interview in April. Applications (including letters of reference) should be e-mailed to Nadine Fis (nadine.fis@uliege.be) by April 30, 2025. For further information, please contact Prof. Charlotte Sandersen (charlotte.sandersen@uliege.be)
