

Offer – Specialised Internship in Companion Animal Dermatology & Internal Medicine *Academic year 2026-2027*

RESPONSABILITIES

This internship provides a unique opportunity to develop knowledge and practical skills in companion animal dermatology. The intern will work under close, one to one supervision of an experienced veterinary dermatologist and will be actively involved in the diagnostic approach and management of a broad range of dermatological conditions (2 days/week). The position also includes integration within the internal medicine team (3 days/week), with participation in clinical rounds, case discussions and development of diagnostic and treatment plans alongside a multidisciplinary team of veterinary specialists.

VETERINARY UNIVERSITY CLINIC

The Veterinary University Clinic (CVU) at the University of Liège is a renowned institution for veterinary care, education, and research. With specialists from various disciplines, we offer advanced diagnostic and therapeutic services for animals and provide a training ground for future veterinarians and specialists.

SKILLS

The candidate should hold a DVM or equivalent degree from an accredited veterinary school and a rotating internship in companion animals. Proficiency in the **French language** is essential. The candidate should exhibit a strong passion for dermatology and internal medicine. Effective communication and interpersonal skills are essential attributes, as the role requires collaboration within a team-oriented environment and with veterinary students.

Would you like to join us?

Your application should include a curriculum vitae, a covering letter and 1 letter of reference. All applicants are encouraged to schedule a visit to the clinic. Selected candidates will be notified for an interview scheduled in **April 2026**. Application (including letter of reference) should be e-mailed to Nadine Fis (nadine.fis@uliege.be) by the **15th of March 2026**. For further information, please contact Dr Isabelle Remy (iremy@uliege.be)
