

Full-time anaesthetist position in the field of anesthesiology, attached to the Equine Clinical Department

The **Equine Clinical Department** operates a hospital receiving referral cases, as well as a continuous emergency service (24 hours a day, 365 days a year), representing around 1,500 cases a year. In addition, it provides clinical teaching for students of equine veterinary medicine and training for veterinarians in various specializations recognized by EBVS.

Job description:

- Management of patients under general anesthesia and sedation
- Local anesthesia and analgesia
- Care of hospitalized patients
- On-call role, providing first aid in all disciplines
- Clinical teaching of veterinary students and interns
- Scientific research leading to a Doctor of Veterinary Science (PhD) degree
- Enrollment in a veterinary anesthesiology residency (ECVAA)

Required qualifications:

- Degree in veterinary medicine
- Solid clinical experience in general medicine and equine anesthesiology
- Have the right to practice veterinary medicine in Europe
- Be registered or eligible for registration with the Belgian Ordre of Veterinarians
- Good knowledge in written and spoken French

Required skills:

Clinical and teaching skills:

- Motivated to invest in the running of the clinical service
- Motivated to engage in teaching veterinary students
- Combine clinical skills with the ability to transmit these skills to students.

Scientific skills:

- Ability to design and carry out research projects, with a rigorous methodological approach.
- Mastery of experimental techniques and statistical data analysis
- Critical thinking skills to evaluate results and put them into perspective
- Scientific writing skills to publish results in specialized journals

Human and interpersonal skills:

- Adaptability, initiative and motivation
- Team player
- Organizational skills
