

# Job Description

<b>College/Management Unit</b>	College of Health and Agricultural Sciences
<b>School/Unit</b>	School of Veterinary Medicine
<b>Post Title &amp; Subject Area (if relevant)</b>	Resident in Small Animal Internal Medicine
<b>Post Duration</b>	4 years
<b>Grade</b>	Postgraduate student
<b>Closing date</b>	13.00 March 9 <sup>th</sup> 2026

## Position Summary

---

The School of Veterinary Medicine, University College Dublin invites applications for the position of Resident in Small Animal Internal Medicine to commence September 2026.

This is a four-year training position with the following aims:

- To provide clinical training in the field of small animal internal medicine in an approved residency programme
- To obtain a professional doctorate
- To provide an introduction to and experience in clinical research
- To develop communication and teaching skills.

The Resident will be expected to enrol and successfully complete certification for the Diploma of the European College of Veterinary Internal Medicine – Companion Animals (DipECVIM-CA Internal Medicine).

The Resident must also enrol for a postgraduate professional doctorate qualification (Doctor of Veterinary Medical Specialisation – DVMS); <https://www.ucd.ie/vetmed/study/graduateprogrammes/professionaldoratedvms/>. There will be a formal Stage Transfer Assessment for the professional doctorate at approximately 18 months.

The successful applicant will need to:

- Have a veterinary qualification registrable by the Veterinary Council of Ireland (see [www.vci.ie](http://www.vci.ie))
- Satisfy both VCI and University College Dublin English language requirements ([Minimum English Language Requirements - UCD Registry](#)).
- Demonstrate interest in achieving specialist training and research skills in small animal medicine is required. Applicants must have completed a one-year rotating internship (or its equivalent) demonstrating broad training and experience as dictated by the European College of Veterinary Internal Medicine – Companion Animals (ECVIM-CA) ([www.ecvim-ca.org](http://www.ecvim-ca.org)).

You will be joining a medicine team that currently includes eight specialists in internal medicine (dipl. ECVIM-CA/ACVIM-SAIM) and four other internal medicine residents at various stages of training.

We also have specialists in oncology, ECC, diagnostic imaging, surgery, anaesthesia and two visiting specialists in cardiology and dermatology. The hospital is also serviced by a team of nurses and interns (both service specific and rotating interns).

Stipend: €27,000 – €29,000 depending on year of registration
--

## Principal Duties and Responsibilities

---

The Resident has a clinical training commitment of at least 36 weeks per annum. The remainder of the available time (12 weeks excluding holidays) is for other scholarly activities including the conduct of a research programme, the writing of publications, participation in taught modules, attending conferences and other training opportunities, including externships.

Activities include;

- Regular communication with clients/referring veterinary surgeons
- Development of practical skills pertinent to ECVIM-CA training
- Participation in relevant research projects aiming for at least two publications in peer-reviewed scientific journals and submission of a DVMS thesis
- Regular participation in out-of-hours duties
- Teaching veterinary and veterinary nursing students during their clinical rotations
- Attendance at and participation in rounds, journal clubs, seminars and taught modules relevant for ECVIM-CA training and the DVMS
- Provision of support for Interns and veterinary nurses
- Management of case, procedure and activity logs as dictated by the requirements of the ECVIM-CA and DVMS
- Other tasks considered appropriate by their line management

## Selection Criteria

---

Selection criteria outline the qualifications, skills, knowledge and/or experience that the successful candidate would need to demonstrate for successful discharge of the responsibilities of the post. Applications will be assessed on the basis of how well candidates satisfy these criteria.

### Mandatory

- A veterinary qualification eligible for registration with the Veterinary Council of Ireland (see [www.vci.ie](http://www.vci.ie))
- Fulfil both the VCI and the UCD English language requirements; (see [www.vci.ie](http://www.vci.ie)) and ([Minimum English Language Requirements - UCD Registry](#))
- Completion of at least a one-year rotating internship or its equivalent (as per ECVIM-CA guidelines).
- Demonstration of a clear interest in small animal internal medicine and in obtaining further qualifications in the discipline
- A clear proven interest in clinical research

- Excellent communication and interpersonal skills
- Ability to work in a multidisciplinary team
- Proficient speaking and writing skills in the English language

Desirable

- A second internship devoted to internal medicine
- A demonstrable interest in undergraduate teaching
- Proven track record in presenting and teaching
- A postgraduate qualification and evidence of prior publications
- Motivation to succeed
