

Offer - Specialized Internship/Residency in Diagnostic Imaging

Years 2025-2026

THE TRAINING

This internship and residency provide a unique opportunity to improve your knowledge and skills in Companion Animal Diagnostic Imaging starting May 1st (Internship followed by Residency starting September 15th), or September 1st (Internship only) 2025. You will learn under the close supervision of 9 ECVDI diplomates and 1 senior clinicians in diagnostic imaging. You will participate in the management of patients admitted to diagnostic imaging during the daytime schedule, in emergencies and on-call, including some large animal cases. You will be actively involved in the supervision of students.

THE CLINIC

The Veterinary University Clinic (CVU) at the University of Liège is a renowned institution for veterinary care, education, and research. With specialists from various disciplines, we offer advanced diagnostic and therapeutic services for animals and provide a training ground for future veterinarians and specialists.

SKILLS

The candidate should be a team player, eager to grow and a critical thinker, and have a collaborative and knowledge-sharing mindset. She/he should hold a diploma in veterinary medicine recognized within the European Union or deemed equivalent with the right to be registered or to be eligible for registration with the Belgian Veterinary Order. He/she should have completed a rotating companion animal internship or have an equivalent clinical experience. He/she should have a good knowledge of the French language, or a strong willingness to learn quickly to reach an operational level, to efficiently communicate with students and colleagues.

Would you like to join us?

Your application should include a curriculum vitae, a cover letter, and 2 letters of reference. All applicants are encouraged to schedule a visit of the clinic. Selected candidates will be contacted for an interview in beginning March. Application (including reference letters) should be e-mailed to Nadine Fis (nadine.fis@uliege.be). Deadline for application is **March 7, 2025**.
